

Art and architecture – similarities and differences

First, choose art or architecture and 2 different civilizations or cultures that we have studied

China

India

Japan

Africa (any regions)

Europe (any regions)

Find 10 examples of art or architecture from each of your cultures to compare and contrast.

Analyze pieces for similarities and differences - purpose, effect, audience, materials, etc.

Write up all similarities and differences to discuss when presenting

Create a slide show to present with images and notes to read about similarities and differences

You will be graded on:

Presentation of slides (10 pieces of art or architecture to show)

Comparisons and contrasts of art and architecture:

For each piece, you should have clear and thorough explanations of all similarities and differences including purpose, audience, effect, materials, etc.
