Imagine you are a newly qualified Renaissance physician who wants to set up business in a medieval town in need of Renaissance era medicine. Produce an advertisement on Google Slides that show how medically knowledgeable you are in the Renaissance versus the medieval times.

Slide #1: Explain how medieval religion was linked to medicine at this time. Cite ideas about the causes of ill health; Treatment and prevention of ill health; Care for the sick; Medical training.

Slide #2: What new Renaissance services will you offer? What makes your practice Renaissance? Both the individuals like Andreas Vesalius and William Harvey medical ideas to that of Galen, and the discoveries and developments.

Slide #3: Create a want Ad for a “Wise Woman” and the skills she would bring. Also note why the housewife-physician was less respected than the physician, even though she treated more people.

Either in your slides, all of the following terms must be included in context:

Apothecary, Bloodletting, Four Humors, Medieval, Physician, Renaissance, Royal Society, Supernatural, Galen, Andreas Vesalius, William Harvey, and Antonie van Leeuwenhoek
